The image shows the front cover of a book. The cover is black with a white border. In the center, there is a tilted orange square with a white border. Inside the orange square, the words "UNITED ARTISTS" are written in white, uppercase, sans-serif font. The text is arranged in two lines: "UNITED" on the top line and "ARTISTS" on the bottom line. The square is tilted clockwise. There are two small red dots on the left edge of the cover, near the bottom.

PRELIMINARY 1965 THEATRE STATISTICS

RECEIPTS at regular Canadian theatres rose 8.9 per cent in 1965, reaching a total of \$75,490,462, as against \$69,324,744 the year before, it is estimated by the Dominion Bureau of Statistics in its preliminary report based on figures from 75 per cent of the country's situations. However, paid admission in 1965 showed a drop of 1.6 per cent, going from 90,913,288 in 1964 to 89,486,058.

During the year 1,175 regular and auditorium houses operated, a drop of 34 from 1964's 1,209, which may have been partially responsible for the drop

in admissions. The DBS report gives no figures for drive-ins, which are expected to show a gain both in receipts and tickets sold.

Seating capacity of the 1,175 theatres, it followed, showed a decline — 656,683 last year against 668,425 a year earlier, a loss of almost 12,000. Amusement taxes went up to \$5,052,016 from \$4,594,779.

Salaries and wages of theatre employees in 1965 totalled \$16,985,411, a \$684,423 jump from the \$16,300,988 a year earlier.

Boxoffice Statistics

In 1964, says the Dominion Bureau of Statistics, Canadian movie exhibition rang up a cash figure of \$83,350,022, of which \$5,002,307 was for provincial amusement taxes. The non-tax total, \$78,347,715 compared with \$71,641,505 in 1963, is an increase of \$6,706,210.

In the table below none of the figures includes Itinerant Operators but those down to 1956 do include Community Enterprises and this must be borne in mind when comparisons are made. There were 506 of the latter in operation in 1956 and they accounted for about two per cent of the receipts. (See note at foot.)

The drive-ins' share of the total take was \$9,022,971, which does not include \$407,528 in amusement taxes. There were 242 drive-ins operating in 1964, one more than 1963's 241, and they took in \$1,198,218 more than in 1963. In the table below drive-in figures are included from 1946 on, that being the year the first one opened.

The following table includes the Yukon and Northwest Territories, which are serviced from British Columbia. Newfoundland is included for the first time in 1949, the year it became Canada's tenth province.

*Denotes that the DBS for the first time in 1957 dropped Community Enterprises, which usually had about 2% of the receipts. Adding 2%, or \$1,644,228, to the 1957 receipts for purposes of comparison would give an approximate total of \$83,855,716. Similarly, in 1958 it would add \$1,627,860 to make the total \$83,020,938, in 1959 it would add \$1,510,278 to bring the total to \$77,024,252, in 1960 it would add \$1,455,886 to make the total \$73,740,220, in 1961 it would add \$1,377,642 to make the total \$70,259,814, in 1962 it would add \$1,354,962 to make the total \$69,103,080, in 1963 it would add \$1,432,822 to bring the total to \$73,073,927 and in 1964 it would add \$1,667,000 for a total of \$85,017,022.

RECEIPTS

DURING 1964 there were 1,451 motion picture theatres operating in Canada, of which 1,209 were regular theatres and 242 drive-ins. These theatres together admitted 101,727,735 persons and had receipts (excluding taxes) of \$78,347,715. Comparable figures for 1963 were 1,486 theatres having receipts of \$71,641,505 and admissions of 97,888,272. Amusement taxes in 1964 amounted to \$5,002,307 versus \$4,766,714 in 1963.

The per capita expenditure on both types of theatres, at an average of \$4.33 in 1964, was 29 cents higher than the previous year and \$3.97 less than the peak of \$8.30 reached in 1953.

A decrease of 36 theatres brought the number of regular theatres down to 1,209 from 1,245 in 1963 and the seating capacity to 668,425 from 684,020 in 1963.

Receipts from sources other than sales of tickets were valued at \$13,217,026 and included \$11,581,999 from sales of candy, drinks, cigarettes, etc., (\$10,575,061 in 1963), \$216,508 from the rental of concessions and vending machine space (\$289,050), \$38,005 from exhibiting commercial films (\$38,776) and \$1,380,514 from other sources (\$1,490,795).

Receipts from admissions increased in all 10 provinces of Canada. Saskatchewan indicated the largest increase at 19.7 per cent followed by Prince Edward Island at 14.9 per cent, British Columbia 12.9 per cent, Nova Scotia 12.4 per cent, etc. The smallest improvement was recorded by Newfoundland at 3.6 per cent. Number of paid admissions increased in all provinces. The largest increases were recorded by Saskatchewan and Prince Edward Island or 13.8 per cent and 11.7 per cent respectively. There were virtually no changes in Quebec and Manitoba.

The average admission price (exclud-

ing taxes) for Canada was 76 cents in 1964 compared with 72 cents in 1963. The average price decreased one cent in Newfoundland. All other provinces showed increases ranging from two cents in Prince Edward Island and Nova Scotia to five cents in Manitoba, Alberta and British Columbia.

DRIVE-INS

The number of drive-in theatres operating in Canada in 1964 totalled 242 with a capacity for 92,535 cars, an increase of one in the number of theatres and 3,088 in car capacity. Receipts from admissions (excluding taxes) increased to \$9,022,971 from \$7,824,753 in 1963, or 15.3 per cent. Total receipts

from other sources amounted to \$3,992,032 compared with \$3,773,332 in 1963, of which \$3,776,794 was derived from the sale of candy, drinks, cigarettes, etc., \$49,290 from the rental of concessions and vending machine space, \$85,762 from exhibiting commercial advertising films and \$80,186 from other unidentified sources. These theatres employed 2,191 persons and paid \$2,303,880 in salaries and wages. Amusement taxes amounted to \$407,528 compared with \$396,002 in 1963, a slight increase.

Eleven of the 242 drive-in theatres operating in 1964 were equipped with 16 mm. projectors and reported receipts (excluding taxes) of \$70,694 and a total attendance of 95,598.

Film Rentals

DURING 1964 films were distributed by 60 companies through 129 offices located across Canada. These exchanges had receipts of \$41,288,801 compared with receipts of \$40,156,396 obtained by the same number of companies operating through 129 offices in

New films releases for theatrical bookings numbered 979 of which 639 were features, 157 cartoons, 115 news-reels and 68 other short subjects. Of the 639 features, 212 were from the US, 164 from France, 56 from the UK, 118 from Italy, six from Canada and 83 from other countries.

THE PIONEER OF THE YEAR AWARD

In 1952 the CPP marked The Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre—the Electric of John Schuberg on Cordova Street, Vancouver, which he opened in the Fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schuberg, Jule Allen of Toronto, George Ganetokos of Montreal, A. J. Mason of Springhill, NS, L. Ernest Quimet of Montreal and Fred G. Spencer of Saint John, NB were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and Schuberg, Ganetokos and Allen have died since.

The next year The Pioneer of the Year Award was inaugurated. Those who have received it to date are—1953: John J. Fitzgibbons, Sr., CBE; 1954: Jack Arthur, MBE; 1955: Louis Rosenfeld; 1956: O. R. CUSTOMS, TARIFF, ETC.

16 MM. FILMS FROM USA

Exposed motion picture film is subject to a duty of 1½ cents per linear foot ad valorem, which is not to exceed 20 per cent of the invoice value, plus a sales tax of 11 per cent. The duty is to be computed on the prevailing rate of exchange on date of shipment. If the USA dollar is at a premium in Canada the invoice value is increased to compensate for the difference in exchange. If, however, the USA dollar is at a discount in Canada the invoice value is reduced. Here is how the tariff is worked out on a 5,000-foot film, invoiced at \$400, when the Canadian dollar is at a discount of 8 per cent:

Invoice value	\$400.00
Plus prevailing rate of exchange (8%)	32.00
	<hr/>
Duty on 5,000 feet at 1½c a foot	432.00
	<hr/>
	75.00

(As the Duty does not exceeded 20% of the invoice value, in this case \$36.40, the \$75 is taken in full.)
 Amount subject to sales Tax 507.00

Sales tax 11%	55.77
Amount payable (duty and sales tax)	130.77

16 MM. FILMS FROM GREAT BRITAIN

Exposed motion picture film is free of duty but subject to a sales tax of eleven per cent on the invoice value.

EDUCATIONAL OR RELIGIOUS FILMS

(Tariff Item 69605-1)

Photographic reproductions (films) when for the use and by order of any society or institution incorporated or established for religious, philosophical, educational, scientific or literary purposes, and not for sale or rental: Duty free and sales tax exempt under all tariffs on production of certificate in required form. Information available at all Custom Houses.

35 MM. FILMS FROM USA

Exposed motion picture film has a minimum value of eight cents per foot for duty purposes. (An appraisal valuation of eight cents a foot is set by the Government, but if the invoice value is higher than the greater figure is used.) The duty is one and one-half cents per foot and this is added to the appraisal value. A sales tax of 11 per cent is worked out against the total. The figures are the same for color or black-and-white. The appraisal value takes care of the fluctuation in exchange. Here is how the tariff is worked out:

1,000 feet at minimum value of 8c per foot	\$20.00
Duty of 1½c per foot	15.00
	<hr/>
Amount dutiable	95.00
Sales tax 11%	10.45
Amount payable (duty and sales tax)	25.45

EDUCATIONAL OR RELIGIOUS FILMS

(Tariff Item 69615-1)

This item provides for moving picture films, sound or silent, separate sound film track, slides and slide films, positive or negative, and sound recordings for use therewith; sound recordings for use by educational, scientific or cultural institutions or societies; sound recordings other than for sale or rental; models, static and moving, video tape recordings; wall charts, maps and posters: All the foregoing when certified by the government or by recognized representative authority of the government of the country of production or by an appropriate representative of the United Nations Educational, Scientific and Cultural Organization as being of an international educational, scientific or cultural character duty and sales tax free under all tariffs. Regulations and information on certifying authorities may be obtained at any Custom House.

35 MM. FILMS FROM GREAT BRITAIN

Exposed motion picture film is subject to the same duty and sales tax as USA shipments.

OTHER ITEMS

Item 46220-1 reads: "Cinematograph and motion picture cameras and camera blimps for use by professional motion picture producers having studios in Canada equipped for motion picture production" and "parts of the foregoing" are free of duty under the British Preferential and Most Favored Nation Tariffs and 15% under the General Tariff.

Item 91502-1 "Cellulose nitrate cinematograph and moving picture films, negatives, n.o.p.," sets the rate under British Preferential and Most Favored Nation Tariffs at ten per cent, with no discount when duty is less than 15 per cent.

Item 65800-1, which was free under British Preferential tariff and Most Favored Nation tariff, is listed at the same rates but has been altered to exclude filmed or video taped TV commercials. Added was item 65805-1, which gives the duty on filmed or video taped TV commercials as 15% BPT, 20% MFNT 30% General Tariff; and 65810-1, which gives the duty on video tape, n.o.p. (not otherwise provided for under 65800-1, and 65805-1), as 15% BPT, 20% MFNT and 30% General Tariff. The amended item 65800-1 reads:

"Motion picture film, of 16 millimetre width and over, and video tape, not including filmed or video taped television commercials, when imported by recognized processors of motion picture film or video tape having duly equipped laboratories for processing motion picture film or video tape in Canada, for the sole purpose of having reproductions made therefrom, and if the original film or video tape is re-exported within six months

from the date of importation, under such regulations as the Minister may prescribe."

Item 69605-1 affords duty-free entry to a very broad range of articles and equipment imported into Canada for the use and by order of any society or institution incorporated or established solely for religious, philosophical, educational, scientific or literary purposes, or for the encouragement of the fine arts, or for the use and by order of any public hospital, college, academy, school or seminary of learning in Canada, and not for sale or rental. The articles referred to above include sound and silent films, separate sound film tracks, positive and negative slides and filmstrips. The relation of this tariff item to certain articles of equipment is noted further on.

Unexposed sensitized negative film of standard commercial width, viz., 35 mm. or over, is rated for duty under Item 18710-1 at 10 per cent ad valorem, Most Favoured Nation tariff and free under British Preferential Tariff. Unexposed sensitized negative film of lesser width, e.g. 8 mm. or 16 mm., is classified for duty purposes under Item 18700-1 at 20 per cent ad valorem under the aforesaid Tariff and is admitted free under British Preferential Tariff.

Exposed 35 mm. films pay a duty of 1.5 Canadian cents per foot. This tariff also applies to British films. As mentioned above, films for the use and by order of institutions or societies qualified for the entry benefits are exempt from duty.

Film cameras, for use with films of 8 mm., 16 mm. or 35 mm. silent type, are considered to be admissible free of duty, under the provision in Item 69605-1 relating to "mechanical equipment of a class or kind not made in Canada," when for the use and by order of institutions or societies qualified for the entry benefits of this item and not

for sale or rental.

Sound projectors for 16 mm. films are held to be articles of a class or kind not made in Canada and are therefore admissible under Item 69605-1, when for the use and by order of institutions qualified for the entry privileges of this item and not for sale or rental.

Sound projectors for 16 mm. films, designed for portable use and having incandescent lamp light source, have been ruled as made in Canada and are not entitled to entry under Item 69605-1.

Slide or filmstrip still-picture projectors, when valued at not less than \$25 each retail in Canada may be admitted free of duty under Item 69605-1, when for the use and by order of institutions qualified for the entry privileges of this item and not for sale or rental.

Articles entitled to entry under Tariff Item 69605-1 are exempt from the consumption of sales tax; otherwise the impost of eleven per cent levied on the duty-paid value is applicable.

INCOME-TAX INFORMATION

No changes were made in the Canada-United States Reciprocal Tax Convention during the past year, according to the Department of National Revenue. The effect of the Convention, as stated by the Legal Branch at the Taxation Division, is:

"Under the Treaty Agreement between the United States and Canada, a credit for income tax deducted at source by one country will be allowed on the return filed by a taxpayer of the other country. Canadians earning income in the United States may claim credits in their Canadian returns for income tax withheld at a United States source, and Americans earning income in Canada may claim credit in their American returns for income tax withheld at a Canadian source."

PROVINCIAL LEGISLATION

THE most comprehensive survey of the motion picture in action ever made and recorded is that which was issued by UNESCO in 1950, "Press/Film/Radio," which is one of the "Reports On the Facilities of Mass Communications" embracing the world. Pages 292 to 305 are devoted to Canada, a flattering amount of space indicative of its high standing in the film world.

One of the most interesting sections of UNESCO's Canadian survey was called "Legislation," which contained information surprising in its nature and quantity. It is reprinted here with revisions to bring it up to date.

Apart from the National Film Act governing the operation of the National Film Board of Canada, which will be dealt with later on, no special film legislation has been issued by the Canadian Government, this being the domain of the Provincial governments. Each of these has enacted such legislation, mainly dealing with licensing and censorship as follows:

British Columbia: Moving Pictures Act 1924 as amended by the Moving Pictures Act Amendment Act 1948 and the Regulations under it

(Regulations respecting Moving Picture Films and Film Exchanges, lastly amended by Order in Council No. 272 of 16 February 1950). The censor board, which has an "Adult Entertainment" classification, recently introduced "Restricted," which bans all under 18 from films so designated.

Alberta: Amusements Act and the Regulations Under the Amusements Act of 1941 lastly amended by Order in Council No. 488 of 2 May 1949. A recent amendment lowered the age at which children may attend movie theatres after 8 p.m. without adult companionship from 16 to 14. The "Restricted" category was introduced in 1964.

Manitoba: Amusements Act 1924. The "Restricted" category was introduced in 1964.

New Brunswick: The Theatres Act 1927.

Nova Scotia: The Theatres, Cinematograph and Amusements Act 1923, and Regulations thereunder (lastly revised 7 July 1945). The "Restricted" category was introduced in 1964.

Ontario: The Theatres Act, 1953, a complete revision of the Theatres and Cinematographs Act, first passed in 1911. Under the new act the minimum age under which children may attend movies unaccompanied is lowered from 16 to 14. The term "theatre" is redefined to apply only to those showing 35 mm. films. The exhibition of 16 mm. films in halls becomes the responsibility of local officials. The previous men-per-booth law is withdrawn. Films classified as "Adult Entertainment" must be advertised in the papers and identified outside the theatre.

Under the category called "Restricted" certain films are allowed exhibition for patrons over 18, each engagement requiring approval.

Prince Edward Island: There is no Board of Censors. Pictures shown must be approved by the New Brunswick Board of Censors.

Quebec: Act respecting Exhibitions of Moving Pictures 1925 and the regulations under it (Regulations respecting the censorship of films, lastly revised by Order in Council No. 342 of 31 March 1949). Complete revision of the Act was under way in 1964 and the new one may be put before the Legislature for approval in the Spring of 1965. Censorship has already been liberalized from the severe strictures of the past to broad approval.

Saskatchewan: The Theatres and Cinematographs Act 1940 and the Regulations under the Theatres and Cinematographs Act, lastly amended by Order in Council No. 48 of 1948.

Finally, in the North West Territories which do not constitute a province, there is the Ordinance respecting Motion Pictures, lastly amended on 17 March 1948, dealing mainly with theatre licensing and safety conditions. As there are only four licensed cinemas in the North West Territories which obtain films through provincial distribution, and as such films have been censored by the provincial authorities, it has not been considered necessary to carry out further censorship.

In Newfoundland, there is an "Act regarding the Censorship of Moving Pictures," but no regulations have been laid down thereunder. At one time a Board of Censorship existed but it was dissolved some years ago.

All provincial acts contain regulations concerning the licensing of cinemas with a view to public safety and compliance with censorship rules. Generally the licensing includes permanent cinemas as well as mobile cinemas and drive-in theatres both for 35mm and 16mm. In the Province of Quebec, film performances in the open air, and consequently drive-in theatres, are prohibited. Most of the provinces require by law that projectionists must pass an examination and obtain a certificate.

Film exchanges (distributing companies and their local agents) must also be licensed, generally to

ensure the safe storage of films. In different provinces, such as the provinces of Alberta, Nova Scotia and Ontario, the law contains a clause according to which the authority in charge may prescribe the terms and conditions under which films may be sold, leased or exchanged.

In addition the Lieutenant-Governor in Council of the province of Ontario may require that a proportion of the films available for distribution to exhibitors and the films exhibited in each theatre be of British manufacture and origin, and he may fix such proportions on a monthly or yearly basis.

The Nova Scotia Theatres, Cinematographs and Amusement Act lays down that no cinema may be deprived of the number of films necessary for its operation and also that no cinema may contract for more films than are reasonably required.

A special rule of the British Columbia Moving Pictures Act provides for the establishment of a British Columbia Patriotic and Educational Picture Service under the Department of the Attorney-General. The task of this service is to produce and acquire films and slides of a patriotic, educational or entertaining nature (especially concerning the Province or the Dominion) and to furnish them without charge for public exhibition in the cinemas. The Director of the Service may issue directions to the cinemas as to the times and manner of the exhibition of the films and slides.

Finally different provincial acts deal with entertainment taxes and all of them contain censorship rules. The general pattern is that censorship is exercised in each province by a Censorship Board and appeals against the decisions of these Boards can be made to the provincial Appeals Boards. Furthermore, films are usually censored under two categories: Adult and Suitable for Family Entertainment (or General), but Ontario and BC have added a third classification: Restricted, under which only persons over 18 years may be admitted. The age under which children may not visit cinemas unless films especially approved for them are shown, varies from 14 to 16 years. However, in the Province of Quebec children under 16 were not admitted at all from 1927 until 1961, when legislation was introduced to change this.

(For censorship fees and exchange licences see Censorship section.)

Honorary Awards which are conferred only by vote of the Academy Board of Governors must be clearly defined in all advertising as Honorary Awards and must specify the accomplishments for which the recognition was accorded. Honorary Awards shall not be so advertised or exploited that the public will confuse an Honorary Award with an Award voted by the Academy membership.

When an Honorary Award has been conferred for a technique or for a series of motion pictures, the Award symbol granted for that Honorary Award may be used in advertising such technique or series providing: that the year and accomplishment for which the Honorary Award was given is included in the advertising; that only the symbol presented for the technique or series is used, and not the statuette unless the statuette was the symbol so presented.

Academy Award symbols (statuette or plaque) may be used without special written permission only (a) To advertise the specific achievement for which the Award was given; (b) To refer to the presentation of the annual Academy Awards as an event; and (c) In connection with stories and articles referring to the Academy as an organization. Permission to use the Academy Award symbols for any other purposes whatsoever must be obtained in writing from the Academy.

Since 1925 the Composers, Authors and Publishers Association of Canada Limited has served its composer, author and publisher members, the users of music in Canada and the Canadian public.

The protection of the property right inherent in musical compositions and lyrics in the performing right field can only be effectively accomplished through a central organization such as CAPAC.

The users of music benefit from CAPAC's administration inasmuch as without such an organization any user would have to clear thousands of musical works individually rather than through one central body and the expense of such individual clearance would far exceed the cost of a blanket license issued by CAPAC which authorizes the performance of any or all of some millions of works.

CAPAC distributes the fees it collects amongst composers, lyric writers and publishers whose works are performed in Canada without any deduction whatsoever other than the actual cost of overhead which is maintained at approximately 12%. In any given distribution payments are forwarded to Canadians as well as citizens of some thirty-two countries throughout the world and the Canadian members in turn receive payment from societies in these countries through CAPAC for performances of Canadian works abroad.

The Canadian public benefits as a result of CAPAC's existence inasmuch as the holders of the CAPAC license are able to present to music lovers throughout Canada selections from the world library of music without fear of infringing copyright.
